

BRACKET

A3

The A3 bracket delivers a new standard of adjustment and versatility for our integrated platform. Its reversible design and expanded tilt range now match the capabilities that previously required adaptors with the A2 bracket.

KEY BENEFITS INCLUDE:

- + Independent adjustment of all components for precise tuning
- + Effortless usability and proven reliability remain core strengths
- + Native compatibility with A3 risers, and with A2 risers via an adaptor
- + Extended reach of 30mm and an additional 15° of tilt for greater flexibility

Thanks to advanced manufacturing techniques, these enhancements come with only a minimal increase in cost.

Specifications

Weight	290g/pair
Tilt Range	0-30°
Height	51.7mm
Extension Clamp Diameter	22.2mm
