PRO
WALL

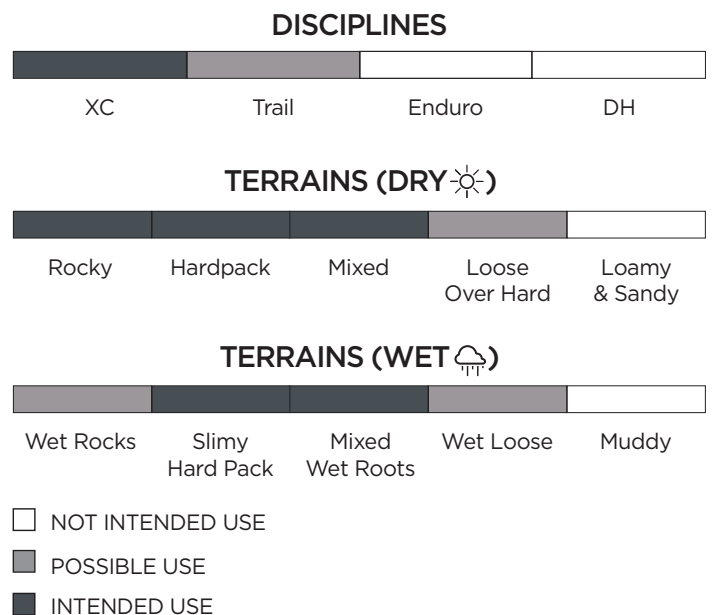

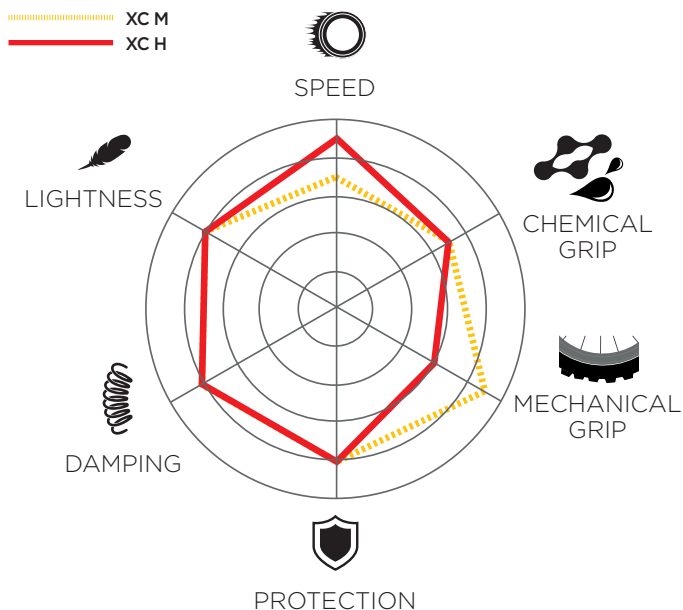

DESCRIPTION

The **Scorpion Sport XC M** is the latest introduction in Pirelli's Cross Country range, designed for a relaxed, non-competitive approach to MTB, in light XC and trail. For those looking for a safe, reliable and comfortable product.

The combination of the 60 TPI **ProWall** casing with sidewall protections and the **Procompound Endurance**, developed specifically for this product family, results in maximum resistance to punctures and cuts, ensuring product reliability and durability.

An "all rounder" suitable for any riding style.

DESCRIPTION

The **Scorpion Sport XC H** is the latest introduction in Pirelli's Cross Country range, designed for a relaxed, non-competitive approach to MTB, in light XC and trail. For those looking for a safe, reliable and comfortable product.

The combination of the 60 TPI **ProWall** casing with side wall protections and the **Procompound Endurance**, developed specifically for this product family, results in maximum resistance to punctures and cuts, ensuring product reliability and durability.

The arrangement and geometry of the H design are made to tackle hardpack and fast rolling surfaces.

TECH OVERVIEW

1 COMPOUND

Cap & Base compound: of the two layers of rubber that make up the compound only one is always in contact with the ground, even when worn, effectively giving all the benefits of a single-compound construction: uniform behavior, mileage and comfort

PROTECTION,
MILEAGE
AND COMFORT

2 STRUCTURE

one ply 60 TPI plus sidewall reinforcements for maximum protection
