

SCORPION™ ENDURO

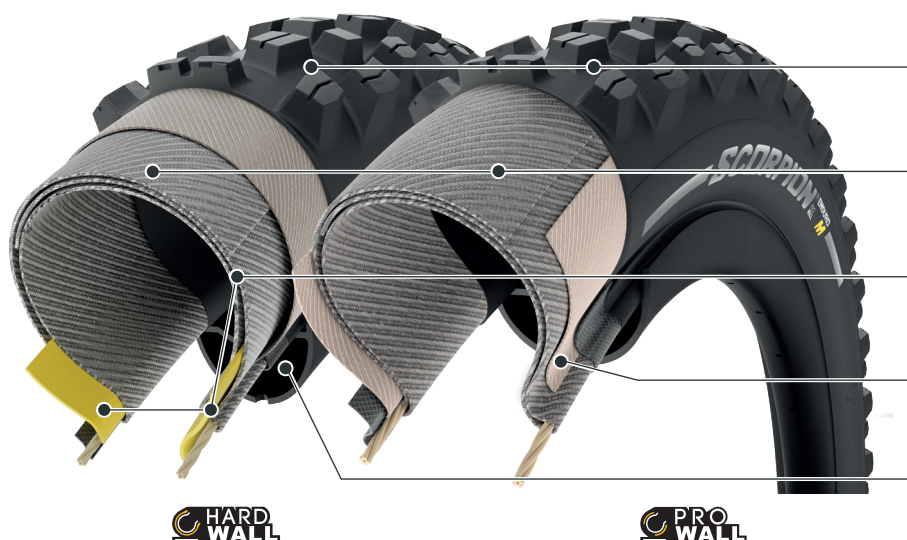

POWER IS NOTHING WITHOUT CONTROL

DESCRIPTION:

A variety of 3 different tread patterns for different terrain conditions, from M (mixed) to S (loose and soft) developed to offer a complete range of performing tyres for daily abuse on the trails. Developed to withstand the rigors of modern riding, where bikes have become faster and stronger, the Scorpion™ Enduro range delivers grip and reliability against abuse where it matters: the proprietary SmartGRIP Gravity Compound delivers grip on both dry and wet conditions as well as superior resistance to tearing; performance that last for the entire lifespan of the tyre, even when worn down.
