ROAD

DESCRIPTION:

Pirelli expands its road offering by introducing the P7™Sport, a product for those who choose riding for leisure & fitness rather than chasing KOMs with a performance focus. Developed with the intent of lasting longer than our racing products but giving the same confident feeling, it provides a greater level of mileage and excellent grip. The new P7™Sport is the perfect training tyre for the racers or the ideal buy-and-forget product for the average consumer, built around reliability and durability. Designed with 60tpi TechBELT casing technology, it is also available in wider sizes such as 32mm and it is designed around wider modern rims, for even more comfort.
