

P ZEROTM RACE TUB SL

LIGHTWEIGHT PERFORMANCE

SELLING POINT:

LIGHTWEIGHT

SPEED

HANDLING

DESCRIPTION:

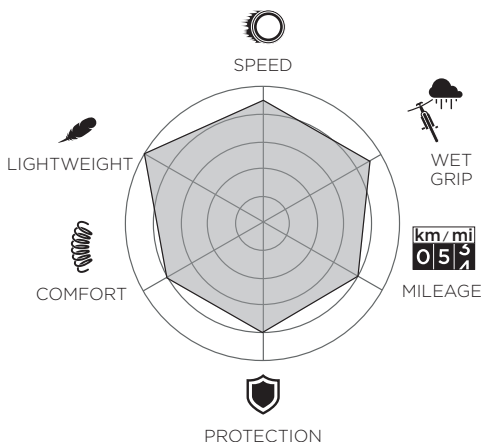

Winning World Tour races takes preparation and the best equipment available on the market, our factory teams always push us to do our best to improve. P ZEROTM Race Tub SL is the result of the endless process of research and development, a racing tubular that has the same speed and handling performances of his predecessor, but lighter.

Pirelli obtained the same performances offered by a standard latex tube and a record-breaking weight (275g) using an innovative inner tube, giving the athletes an unexpected advantage.

P ZEROTM Race Tub SL sets a new standard for racing tubulars, both for World Tour athletes and amateurs.

- 320tpi Corespun carcass
- SmartEVO Compound
- Excellent grip and rolling resistance in every weather condition
- Complete air tightness

CHARACTERISTICS:

APPLICATIONS

SEASONALITY (☀ & ☁)

- ☐ NOT INTENDED USE
- ☒ POSSIBLE USE
- ☒ INTENDED USE

TECH OVERVIEW:

1 Compound

Latest generation blend of smart polymers to provide maximum grip with a low rolling resistance

PERMITS YOU TO GO FASTER WITH BETTER CONTROL

2 Structure

320tpi Corespun casing reinforced with added aramid fibres

TPU (thermoplastic polyurethane) tube: a cutting-edge material that keeps the same performances of speed and puncture protection of the latex but with a significant weight reduction and complete air tightness

GUARANTEES GREAT PUNCTURE PROTECTION WHILE DELIVERING COMFORT AND SHARP HANDLING

IMPROVES HANDLING AND CLIMBING SPEED

"The new tubulars feel fast and handle like the old ones but now they are lighter, you feel that in the climbs." - Esteban Chaves, Team Bike Exchange

DESCRIPTION	CASING	TECHNOLOGY	WEIGHT	COMPOUND

FINE TUNE YOUR PERFORMANCE

WORLD TOUR PRESSURE CHART

P ZERO™ Race TUB SL 26-28"				
RIDER WEIGHT [kg]	PRESSURE (bar)		PRESSURE (PSI)	
	Minimum	Maximum	Minimum	Maximum
55-60	6,3	7	92	102
60-65	6,6	7,3	96	106
65-70	6,9	7,6	101	111
70-75	7,2	7,9	105	115
75-80	7,4	8,1	108	118
80-85	7,6	8,3	111	121
85+	7,8	8,5	114	124

DEPENDING ON RIDING STYLE
COMFORT > drop 0,3 bar / 5 psi on FRONT wheel
AGGRESSIVE > keep same pressure front/rear
WET AND/OR COLD road conditions (BELOW 7°C/44F) drop 0,3 bar / 5 psi on BOTH wheels

⚠ Never exceed the maximum inflation pressure of the tyre
