

SMARTUBE *evo*

PURE PERFORMANCE

SELLING POINT:

FASTEST SMARTUBE

LIGHTWEIGHT

COMPACT

DESCRIPTION:

The **SmarTUBE EVO** is Pirelli's latest innovation in the world of tubes, as we strive to improve performance in modern cycling. They are the result of our development for World Tour, now made available for everyday rides with clinchers. Made from a thermo-plastic polyurethane (TPU), it can save up to **70% of the weight** of a general butyl tube and almost **50% of the space** in your pockets, while being stronger than butyl as a raw material.

SmarTUBE EVO also rolls **5% faster**, giving you an advantage compared to the standard SmarTUBE, making your bike quicker in accelerations and climbing, improving also the handling.

SmarTUBE EVO comes with a **Presta valve**, available in a comprehensive range of valve heights to fit every rim.

APPLICATION:

TT Performance Endurance Light Gravel

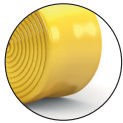

Intended for any kind of road riding where rolling resistance is a priority, from racing to leisure to time trials.

In combination with our P ZERO™ tyres.

TECH OVERVIEW:

1 Material

(TPU)
thermoplastic
polyurethane

Further development of our TPU material, now with even lower hysteresis for lower rolling resistance, at the same weight and compact volume.

5% FASTER THAN PREVIOUS SMAR-TUBE, WHILE STILL SAVING UP TO 70% OF WEIGHT AND 50% OF SPACE

2 Valve

Presta valve: mechanism with glued core, different lengths to work with the majority or rim depths, black colour to look clean and slick

3 Range

Product Name	Size	ETRTO	Valve type	Weight
P ZERO™ SmarTUBE EVO	700x25/28c	25/28-622	Presta 42mm - Black	35g
P ZERO™ SmarTUBE EVO	700x25/28c	25/28-622	Presta 60mm - Black	38g
P ZERO™ SmarTUBE EVO	700x25/28c	25/28-622	Presta 80mm - Black	40g

For Cinturato™ SmarTUBE EVO:

DO NOT USE if bike is equipped with RIM Brakes.

DO NOT REPAIR replace if tube or valve is damaged.
